

HOW TO PAINT A STREAM-LINED RED LAWN JOCKEY

All tools needed are available at any Lowes Home Depot or Walmart: rustoleum primer(light gray or red), rustoleum paint(gloss paint looks best), 1" foam brushes, 1" bristle brushes, small artist brushes for details, Q-tips for spot clean-ups, and mineral spirits for cleanup.

First spray on one coat of light gray or light red Rustoleum primer. Then apply 2 coats of Rustoleum "Stops Rust" oil-based paint in each color with foam and/or bristle brush.

DON'T RUSH! Paint one section at a time. wait until one coat dries (24-48 hours) before moving to the next coat. It takes about 14-21 days to paint a nice looking statue.

Oil paint dries fast but takes about a month to achieve maximum hardness. Avoid rough handling during this curing period.
